Monday, May 17th	Comparative Government Computer Science Principles	Statistics
Friday, May 21st		Music Theory

- Schools must begin the testing sessions on-time. Students will not be admitted late to testing.
- Testing will be administered on our Center campus. Please report to the Center courtyard to check in for testing.
- Please remember to bring a light sweater or jacket in case the testing room is cooler than you like.
- Remember to bring blue or black ink pens, pencils, and additional materials needed for your specific paper-based test session. If you are not sure what you need, ask your teacher ahead of time!
- Snacks and water will be allowed outside of the testing room during the allotted breaks.
- Since the sessions may not finish before your assigned lunch time, please pack a lunch that you can have after testing.
- Students will not be released until all materials are collected and the session has ended. If you plan to have a parent pick you up after testing, please understand that the release time will be longer than the testing time. Testing time does not include breaks or material distribution/collection.
- If you have College Board approved accommodations, testing could take longer than the non-accommodated testing rooms.
- ***Come prepared and ready to do your very best on your AP TEST!***
